Position: Assistant Manager, Programs

Location: Gurgaon, India, with travel to remote underserved areas in India

The member will give thematic inputs for Programs and facilitate implementation through field offices and partners; the position will also involve interfacing with different stakeholders including Government.

Candidates should be energetic, have a relevant post-graduate degree and a minimum of 4 years of experience in the development sector, in the thematic areas of Natural Resource Management/ Livelihoods/ Health & Nutrition. Candidates must possess a reasonable command on integrated rural development projects, a very good understanding of the sector and the policies, and a good command over English language.

The job involves:

- a. Project Calibration: Taking stock of project progress and providing appropriate guidance to field offices and partners.
- b. Technical inputs: Carrying out detailed design for project elements and providing specialised, technical inputs for the project activities.
- c. Documentation and interface: Responsible for all compliances, reports and communication with stakeholders.

Please note that we will be able to communicate with only the shortlisted candidates at each stage of the selection process.
