Name of Tree: Cannonball
Tree

Caption: Cannon ball tree is becoming rare trees nowadays and it is not a commonly know tree to the most of the people in India.

The fruit of this tree resemble like a cannonball hence it is called as “Cannonball Tree”. This is also called as Nagchafa or Kailaspati in India.

Due to medical benefits of this tree I have captioned it as “The Nerves for Life - Cannonball Tree” .

Caption: *While they're
growing, **Christmas Trees**
support life by absorbing
carbon dioxide and other
gases and emitting fresh
oxygen. The farms that grow
Christmas Trees stabilize soil,
protect water supplies and
provide refuge for wildlife
while creating scenic green
belts. Often, Christmas Trees
are grown on soil that
doesn't support other crops*
